

New Features:

Recurring Events

We have enhanced our calendar features for all District, School, Class and Group Calendars to allow for recurring events. You'll be able to create events that repeat daily, weekly or monthly, configure how many times you would like it to occur, end it after a certain date, or leave it repeating forever. These events will be highly configurable, allowing you to choose many different repeat patterns, exclude weekends, different patterns by section and more.
